Good Morning Shiloh Church Road Team,

As you know, additional precautionary measures, including school closings and the President's Emergency Declaration, have been announced since we demobilized yesterday.

Fortunately, our site operations are not high-risk for the following reasons

1. We do not require any person-to-person contact;
2. We are working in a rural area;
3. Our work does not require us to interact with large groups of people;
4. Our work is outdoors
5. As of this message, there are no confirmed cases of COVID-19 in Lynchburg or Halifax County
6. We are assigned APRs and trained in their use. P-100 cartridges are available and are billable.

Therefore, both START and ERRS should plan on returning to the Site on Tuesday 3/17. Of course, it goes without saying that if you are sick on Monday 3/16, please wait to return to work. If you become ill during your time on Site, please notify your Site supervisor and stay at the hotel.

The psychological strain of the pandemic is real. If you or a member of your team feels he or she cannot return to the Site at this time because of other factors, please discuss with your supervisor to determine if a replacement is available. If no replacement is available, please contact me.

Good hygiene habits are part of everyday Site operations. Please continue these during the break and follow all other guidance which is available through the CDC.

We are all on the same team. I care greatly about you and your families.

Try to enjoy the weekend  
See you Tuesday

Chris
